

# HAVE UNUSED WELLHEAD PROPERTY SITTING IN YOUR YARD? Let us buy it from you!

In these tough economic times, we are doing our best to think of new ways to help you fulfill your wellhead needs. We are offering a **new customer property buy-back incentive** to help you save precious capital, continue production and keep cash flow coming in.

## How it works:

Our experts will evaluate the inventory items you wish to sell and make you an offer to purchase them. Once you accept our offer you will be issued a merchandise credit for that amount. If the inventory is at one of our facilities, you will receive documentation showing the transfer from your inventory to ours. If the inventory is elsewhere, we will pick it up and bring it to one of our facilities at our expense. Every time you purchase a remanufactured wellhead item, or UWS performs a repair on your equipment; we will discount the invoice by an additional 10%. With each transaction you will receive a notification showing the balance.

All wellheads and gate valves that you wish to keep in your inventory will be added to our Customer Property Portal where you will have 24/7 access to it via your PC or smart device.

All remanufactured wellheads and valves we sell are completely disassembled, inspected and brought back to new specs. This enables us to place a full 1-year warranty on every remanufactured item we sell. Every customer property wellhead or valve repaired by UWS is also done to the same strict standards and carries the same 1-year warranty.

Let us help you save money by utilizing the wellhead inventory that you already own. For more information on how you can take advantage of this offer, contact your UWS representative today.
